## COPPER IN DEMAND

### Manufacturers Fear a Shortage.

#### CAUSE IS ENORMOUS EXPORTS

#### Great Increase in Consumption in England, France and Germany.

New York reports state that things are beginning to look somewhat serious regarding supplies for the home trade in the months to come, and where they are to be obtained. It is said that the market may be subject to acute conditions if copper continues to leave the country at the rate it is doing at present. Home consumers want their deliveries prompt and their requirements may become more imperative later on. As things look at present the flow of copper Europeanward will not be checked for a long time, and sellers evince no eagerness to take orders for filling earlier than next month. It is believed that from now to next January will be quite an interesting period for copper.

A New York brass manufacturer is quoted as saying: "There is almost a scarcity of copper at the moment. The outlook for the industry to be the best ever known. The demand for electric purposes is very heavy and constantly increasing, and will, I believe, take care of any increase which may occur in the output of the metal. There does not seem to be much prospect of any great increase in this respect, however, as few mines will become producers for some time yet."

Mr. John Stanton, of Boston, is also quoted as saying: "I look for a very active winter in the copper trade. A great deal of business has been held back, but I have noticed that, while trade has been slow, manufacturers have been quietly adding to their plants, which indicates that they will want more copper. The export demand continues very heavy, and a great deal more copper will be wanted abroad. There is almost no limit to the ultimate expansion of the electrical industries, which means, of course, an accompanying increase in the demand for copper. The old French syndicate were correct in their predictions of electrical development, but they were in too great a hurry to secure higher prices for copper. I do not wish to see any sensational advance in copper as that would undoubtedly result in a curtailment of consumption."

The English board of trade returns for the seven months of this year show the following consumption of copper in England, long tons, compared with the corresponding period in 1899: In 1900, 43,877 tons; in 1899, 34,041 tons.

In France, for the same periods, the consumption is reported at: In 1900, 45,274 tons; in 1899, 37,077 tons.

#### To Protect Cliff Dwellings.

S. J. Holsinger, special agent of the interior department, has been instructed to promulgate orders of the interior department prohibiting any and all excavations on government land and the carrying away of relics from the cliff dwellings. Mr. Holsinger has been ordered to examine the most interesting ruins in New Mexico, Arizona and Colorado, with a view of having them set aside as reservations wherever practical, and to notify all persons excavating them that they will be prosecuted.

#### THE GOVERNOR'S VISIT TO

#### Tombstone--Texas and East Inter-

#### ference in Halderman Case.

Gov. N. O. Murphy arrived in Tombstone on the delayed stage which was some three hours late, owing to the washout on the S. P., says the Prospector. The governor was here partly to look up some matters in relation to the Halderman brothers case and learn whatever possible regarding same during his brief stay. The territorial executive is one of Arizona's popular officers and has many friends in this neck of the woods. A large number of Tombstoners called upon him at the Arlington and were cordially received, the governor chatting pleasantly with all the visitors, many of whom he was personally acquainted with.

A prospector reporter called on the governor before his departure at 10 a. m. and in reply to a question regarding the commutation of the Halderman

sentence, stated he expected to review the entire proceedings, probably next week, at Phoenix, and render his decision in accordance with his findings.

A strong representation on behalf of the condemned men by most influential citizens of Texas and the east had been made, and the appeal from them, who hear but one side, naturally made strong and are practically of an expert nature. The governor proposed to inquire thoroughly and conscientiously into the evidence, review both sides and enter his decision accordingly. He spoke of the grave responsibility devolving upon him by reason of the presidential reprieve, but would be actuated solely by an earnest desire to do justice in the matter, which it would receive at his hands.

#### Republican Call.

The republican central committee of Cochise county, at a regularly called meeting, September 8th, 1900, adopted the following resolutions and ordered: That a delegate convention of the republicans of Cochise county be held at the opera house, Bisbee, Arizona, at 10 o'clock a. m., Friday, October 12th, 1900, for the purpose of nominating candidates for the several legislative and county offices, to be voted for at the coming November election; selecting a county central committee and the transaction of such other business as may properly come before the convention. That the apportionment of delegates to said convention be as follows:

Bisbee.....	24
Tombstone.....	6
Benson.....	4
Willcox.....	5
Pearce.....	4
St. David.....	1
Hereford.....	1
Turquoise.....	2
Fort Huachuca.....	1
Fairbanks.....	1
Miller's Canyon.....	1
San Simon.....	1
Teviston.....	1
Four Bar Ranch.....	1
Naco.....	2
Huachuca Siding.....	1
East Huachuca.....	1
Tres Alamos.....	1
Brannock.....	1
Pool's Ranch.....	1
Cochise.....	1
Barrett.....	1
Hardy.....	1
Rucker.....	1
Dos Cabezas.....	2
Russellville.....	1
Middlemarch.....	1
San Bernardino.....	1
Johnson.....	1
Bowie.....	1
Total.....	72

That a primary election be held throughout the county on Friday, the 28th day of September, 1900, for the purpose of choosing said delegates. That all arrangements, including the appointment of election boards, for said primary election, be made by the republicans of the various precincts, except in Bisbee. In Bisbee the chairman of the county central committee will appoint the primary election board, and the poll will be open from 10 o'clock a. m. to 7 o'clock p. m.

C. C. WARNER,  
Chairman Rep. Co. Cen. Com.  
JOHN A. CAMPBELL,  
Sec'y. Rep. Co. Cen. Com.

#### Democratic County Convention.

At a meeting of the Democratic Central Committee of Cochise county held in Benson on August 23, 1900, it was ordered that the DEMOCRATIC COUNTY CONVENTION be called to meet in Knights of Pythias Hall in the town of Benson on the TENTH DAY OF OCTOBER, 1900, at 11 o'clock a. m. The convention is called for the purpose of nominating candidates for the various legislative and county offices to be voted for at the November elections of this year, for selecting a County Central Committee and of transacting such other business as may properly come before said convention. Order of business to be arranged by the convention.

The following is the number of delegates apportioned to each precinct, based on the vote of 1898:

Bisbee.....	18
Tombstone.....	5
Benson.....	3
Willcox.....	3
Pearce.....	3
St. David.....	2
Hereford.....	2
Turquoise.....	1
Fort Huachuca.....	2
Fairbanks.....	2
Miller's Canyon.....	2
San Simon.....	2
Teviston.....	2
Naco.....	2
Four Bar Ranch.....	2
Huachuca Siding.....	1
West Huachuca.....	1
Carr's Canyon.....	1
Tres Alamos.....	1
Brannock.....	1
Pool's Ranch.....	1
Cochise.....	1
Barrett.....	1
Hardy.....	1
Rucker.....	1
Dos Cabezas.....	1
Russellville.....	1
Middlemarch.....	1
San Bernardino.....	1
Total.....	68

By order of the Cochise County Democratic Central Committee.  
F. A. SWEET,  
Chairman.  
B. J. O'REILLY, Secretary.  
Bisbee, Arizona, September 8, 1900.

## DEMOCRATS WRANGLING

### Attempts at Harmony Seem Futile.

#### RESULT HINGES ON MARICOPA

#### Credentials Committee Named, but Seem Unable to Agree.

#### Special to Cochise Review:

PHOENIX, Sept. 13.—The convention reassembled at 3 o'clock yesterday afternoon and was called to order by both chairmen and sheriff.

Herndon, of Yavapai, made a motion, seconded by Packard, of Cochise, that a committee of six on credentials be appointed, the committee to have power to choose a seventh member, and that the report of this committee shall be final. The motion was put by both chairmen in concert and was unanimously carried.

The committee was appointed and consists of Sweet, Adamson, Barkley, Lovin, Nugent and Sawyer. The convention then adjourned until 8 o'clock in the evening, but the committee did not make a report when a further adjournment was taken to 10 o'clock this morning.

On assembling this morning the convention discovered that the committee was unable to agree and therefore had no report to make. One-half of the committee added Flake, of Navajo, as the seventh man.

The outlook is good for a protracted struggle, and it may result in seriously impairing the chances for election of the man who is nominated.

#### King of Arizona.

Col. Geo. W. Norton, of Mohawk, was in Yuma Monday. He informed the Sentinel that the station on the Southern Pacific had been moved from Texas Hill to Mohawk Summit, from where his stage line to the King of Arizona mine makes close connection with the east and west bound trains. Mr. Norton says everything in and about the King of Arizona mine is very prosperous. They now have very rich ore in sight which will take them twenty years to work out. The company is about to put in a 10,000-ton plant, and will increase their works proportionately all around. They have an abundance of water, having recently bored a new well. Mr. Norton has taken a contract to open a road from the King to T. son's Wells mining district. The route has been surveyed and found feasible, with no heavy grades and plenty of water. The opening of this road will divert the trade of that prosperous mining district to the King of Arizona and Mohawk. Mr. Norton states that Mohawk is quite a bustling town.—Yuma Sun.

#### AGUINALDO'S INSTRUCTIONS

#### Captured by the Americans Being Part of the Records Seized.

WASHINGTON, Sept. 13.—The war department today made public the following letter of instructions, purporting to be signed by Aguinaldo, with the explanation that it was among the records captured by the American forces:

"MALOLAS, Jan. 9, 1899.—Instructions to the Brave Soldiers of Sandtahan of Manila:

"Article 1. All Filipinos should observe our fellow-countrymen in order to see whether they are American sympathizers. They shall take care to work with them in order to inspire them with confidence of the strength of the holy cause of their country. Whenever they are assured of the loyalty of the converts they shall instruct them to continue in the character of an American sympathizer in order that they may receive good pay, but without prejudicing the cause of our country. In this way they can serve themselves, and at the same time serve the public by communicating to the committee of chiefs and officials of our army whatever news of importance they may have.

"All of the chiefs and Filipino brothers should be ready and courageous for the combat, and should take advantage of the opportunity to study well the situation of the American outposts and headquarters, observing especially secret places where they can approach and surprise the enemy.

"Art. 6. The officers shall take care that on the top of the houses along the

streets where the American forces shall pass there will be placed four to six men, who shall be prepared with stones, timbers, red hot iron, heavy furniture, as well as boiling water, oil and molasses, rags soaked in coal oil ready to be lighted and thrown down, and any other hard and heavy objects that they can throw on the passing American troops. At the same time in the lower parts of the houses will be concealed the Sandtahan, who will attack immediately.

"Great care should be taken not to throw glass in the streets as the greater part of our soldiers go barefooted. On these houses there will, if possible, be arranged in addition to the objects to be thrown down a number of the Sandtahan, in order to cover a retreat or to follow up a rout of the enemy's column, so that we may be sure of the destruction of all the opposing forces.

#### A Burning Woodpile.

The destruction by fire of A. J. Hansen's woodpile at Kyrene last Saturday night was the most disastrous conflagration of stove wood on record. There were 7,400 cords of wood, and it was worth \$22,000.

The fire was undoubtedly incendiary. A couple of men who saw it break out had noticed a few moments before a man riding on a gallop toward the foot in the south. He seemed to be riding in a direct line away from the woodpile.

Mr. Hansen said the fire was the hottest he ever felt. Several attempts were made to save a part of the pile by making great gaps in front of the flames. The first 100 feet wide and the next 150 feet. They were so wide that the flames did not leap across but the heat was so intense that the wood on the other side was ignited. It was mostly mesquite and has been thoroughly seasoned by a summer of Arizona suns. A burning frame building, Mr. Hansen said, was a refrigerating plant beside his burning woodpile.—Phoenix Herald.

#### LOCAL NOTES.

The local tribe Improved Order of Red Men meet tonight. Visitors are cordially invited.

LOST—A dark vest, containing valuable papers and with an Odd Fellow's pin on left lapel; was lost near railroad depot. Finder will receive reward on leaving vest and contents at REVIEW office. s13-2t

It is reported that Dr. G. E. Goodfellow, formerly of Tucson, and well known all over the territory, will in a few weeks assume the management of the Southern Pacific railroad eating houses between El Paso and Los Angeles.

Repeal of the poll tax law will be one of the early acts of the next legislature. The people of this county, and no doubt of others, will demand the passage of a primary law. The present system throws down the bars and breeds dissatisfaction.—Enterprise.

It is rumored that Mr. John A. Campbell, secretary of the present republican county committee, will be an aspirant for nomination as county treasurer by the republican convention of Cochise. No man in the republican ranks can be found more competent and he will make an irresistible candidate.—Benson Press.

#### MISCELLANEOUS ITEMS.

A camel can easily carry a load of 1,600 pounds.

There are five automobile clubs in Belgium, and their combined membership is 740.

Infectious diseases are unknown in Greenland, on account of the dry, cold atmosphere.

Paper made from seaweed is so transparent that it is used for windows instead of glass.

Sacramento is to have a new mansion for the governor. It will be of granite and brick, and will cost \$50,000.

An English scientific journal speaks of a couple of Japanese pigeons, one of which lived 33, the other 25 years.

Spurious mummies are made in France and shipped all over the world. Shrewd antiquarians, before purchasing, should examine the mummy with the X-rays, and in this light the sham article is readily discovered.

Enforced cleanliness prevails among the pupils in the public schools of Copenhagen. Three times a week they must take baths in the schools, and while they are sporting in the swimming tank their clothes are purified in steam ovens.

#### Deer Creek Coal Fields.

Professor William Phillips, of Pittsburgh, who recently visited the Deer Creek coal fields, has submitted a report in which he says the result of his investigations lead him to believe that good steam and coking coal is to be found in that field. It will require a good deal of money to decide the question positively, for a number of bore holes must first be put down and a shaft sunk on the coal to determine the quality in depth.—Republican.

## ADDITIONAL DETAILS

### Loss of Life Larger Than Expected.

#### RELIEF PROMPTLY FORWARDED

#### The Hurricane Extended as far as New England, Causing Great Damage.

HOUSTON, Sept. 13.—All schools, public halls, vacant stores and houses are filled this morning with stricken refugees from Galveston and other bay points, coming in by train loads. The city is already vastly overcrowded.

CLEVELAND, Sept. 13.—The record this morning of last night's storm is fourteen lives lost, two vessels foundered, four steamers practically destroyed and two missing.

HOUSTON, Sept. 13.—Noon.—The relief fund for Galveston from the country has reached half a million.

NEW YORK, Sept. 13.—The tremendous storm from Texas is sweeping through New York and New England. Enormous damage has been done especially in Buffalo, where many Pan-American buildings have been destroyed. The loss is two millions. A cyclone is raging in Boston and a storm is howling along the coast. There is much wreckage this afternoon.

#### THE END IN SIGHT.

#### Kruger Has Fled and Botha Will Soon Surrender.

LONDON, Sept. 13.—Kruger arrived at Marquess Lorenzo this morning, and General Botha has opened negotiations with Roberts for a surrender. The war office believes that hostilities in South Africa will end this week.

#### Tammany Is on Top.

SARATOGA, Sept. 13.—Croker defeated Hill in the state convention today. He carried everything and nominated John B. Stanchfield for governor.

#### Train Held Up.

OMAHA, Sept. 13.—The Burlington Flyer was held up early this morning at Haigler, Neb. The bandits secured two thousand dollars in money and some jewelry from the Pullman sleepers. A posse has started in pursuit.

#### A Little Blaze.

TORONTO, Sept. 13.—The town of Paris, Ontario, by a fire this morning has been wiped out. Paris had a population of four thousand.

#### Too Much Wind.

CLEVELAND, Sept. 13.—A gale fanned a trifling fire this morning resulting in a \$100,000 conflagration. The rink structure on the west side was destroyed.

#### Allies Lose Heavily.

BERLIN, Sept. 13.—A Shanghai special says the allied troops attacked a fortress near Taku. A battle followed and the loss among the allies was very great.

#### Hotel Burned.

PROVIDENCE, R. I., Sept. 13.—At Narragansett Pier, the great hotel, the Rockingham, was burned today with the adjacent buildings. The loss is a quarter of a million.

#### Cotton Panic.

LIVERPOOL, Sept. 13.—There is a cotton panic here today. Prices advanced twenty points. Two firms have failed.

#### Steamer and Fifty Passengers Lost.

ST. JOSEPH, Mich., Sept. 13.—The steamer Lawrence, with fifty passengers, was presumably lost this morning.

During July there entered Mexico mining machinery to the amount of \$104,400 gold. It is expected that the orders for the month of August will reach \$200,000 gold. In fact there is a constant increase in the amount of mining machinery going into Mexico.—Silver Belt.

A sample recently received and analyzed at the Arizona school of mines adds another important substance to the already long list of mineral productions of the territory. It came from Martinez, and is found to be a variety of Fuller's earth, much used to remove the oil and grease from woolen goods.—Florence Tribune.
